

Terms and Condition on the use and supply of the ImpactECON Supply Chain Package

Scope of Terms and Conditions

These terms and conditions govern the use of the ImpactECON Supply Chain Package (hereby referenced as “the package”) and any derivatives. The ImpactECON Supply Chain Package is a set of data and programs that allow the user to convert a designated version of the GTAP Data Base into a supply chain database. Specifically, the ImpactECON Supply Chain Package includes all files and programs related to:

- a set of shares and scaling factors, and program that can be used to convert the GTAP Data Base into the ImpactECON Supply Chain Database;
- a program to convert a standard RunGTAP application of the GTAP model into an ImpactECON supply chain application with supply chain database and model; and
- documentation and operating manuals.

By copying or using any part of the ImpactECON supply chain package you are agreeing to these terms and conditions. If you do not agree to these terms and conditions, do not copy or use.

License Types

The following licenses are available:

- a) **Single user license:** These licenses are restricted to a single individual user and can be placed on up to two computers used exclusively by the same person (e.g., desktop and laptop). The individual user or their employer should be listed as the owner or licensee of the package. If the employer is listed, then the individual user should be listed as the designated representative of the licensee.
- b) **Site license:** These licenses may be used by the employees of a department or division within an institution. Geographically dispersed departments or divisions must obtain separate licenses. The license must be signed by a representative who is employed in the department or division. The representative will be responsible for ensuring the license conditions are met.

ImpactECON, LLC should be notified of any changes to the designated representative and an email address provided so that any changes or bug fixes can be communicated to all users of the package.

Conditions

The ImpactECON Supply Chain Database produced by this package, and any derivative aggregations, is a derivative of the GTAP Data Base and hence is governed by the license conditions of the GTAP Data Base. Licensees of the ImpactECON Supply Chain Package must hold a relevant and valid GTAP license and in no case will the ImpactECON Supply Chain Package license substitute for a valid GTAP Data Base license. The GTAP license does not confer rights to the ImpactECON Supply Chain Package. It is the sole responsibility of the users to ensure they are not in violation of either license agreement—separately and jointly.

The ImpactECON Supply Chain Package and derivatives may only be used by employees of the division or department (or individual) covered by the license.

The Supply Chain package is provided "as is". ImpactECON, LLC makes no warranties, express or implied, that the data, associated programs and documentation are free from error, or are consistent with the standard of merchantability, or that they fit for the particular purpose intended.

Licensees are free to make changes to the data, but at no time shall the modified database become the property of the licensee.

Licensees are responsible for the installation of the ImpactECON Supply Chain Package, its use, and for the results obtained. ImpactECON, LLC will not be liable to you (whether under the law of contract, torts or otherwise) for any direct, indirect, special or consequential loss, or for any business losses, loss of revenue, income, profits or anticipated savings, loss of contract or business relationships, loss of reputation or goodwill resulting from the licensee's use of the ImpactECON Supply Chain Package, data or documentation.

ImpactECON, LLC offers support for the installation of the package for up to 3 months. In the event that an installation issue cannot be rectified within this three month period a refund will be provided. Additional support, beyond three months for the installation, and for the use of the ImpactECON Supply Chain package is provided under the Annual license.

Licenses are not transferrable.

The license holder shall not make the package or data available over a network.
